

Nothing Changes if Nothing Changes

We don't sit still for long. We are constantly transforming both our industry and our company. That means we are open and flexible, using what works now to develop what works next. Even if it ain't broke, we still make it better. Lots of folks will say it hasn't been done - we say it hasn't been done yet.

1.

Motivating Yourself

Take the initiative to figure things out. Define how your work makes both you and Sun successful. Proactively work on tasks. Balance work and rest to stay productive and prevent burnout.

2.

Supporting Change

Consider and support others' ideas. Challenge yourself to do things better. Build the flexibility to handle unexpected events. Handle change with optimism and confidence.

3.

Challenging the Status Quo

Brainstorm ways to do your job better. Share your ideas with a plan to make them happen. Spend time learning new things. Don't be afraid to experiment.
